

GEMINI SL - Fiche Exposure Unit

Exposure unit - light box - for use with diazo or vesicular film

The GEM SL Exposure Unit is a semiautomatic light box for fiche duplication. It will expose both diazo and vesicular film with a minimal loss of resolution.

The GEM SL accepts COM, AB Dick, or step and repeat fiche: 105 mm x 48 mm or 4"x6" formats, as well as aperture cards. It is compact and light weight.

The GEM SL incorporates a newly developed lamp. This unique light source greatly reduces the size, weight and energy consumption of the GEM SL compared to all other exposure devices. It provides for instant use together with energy conservation.

ADVANTAGES:

- Easy to use
- Light weight / portable
- Compact - attractive
- Intermittent or continuous use
- Designed for in-office applications
- Energy efficient
- Inexpensive
- Long lamp life ... inexpensive replacement lamps
- Reliable - 1 year warranty
