

CAM SS/XP SECURITY SYSTEM

The CAM SS/XP Security System is designed for the clients that need digital video surveillance of the highest quality and ultra-secure, with RAID-5 storage options available. Excellent image compression, together with uncomparable IT integration. Which means the CAM SS/XP will not compromise network speed or storage space and deliver high-end capabilities your security system.

Features

View - multiple camera outputs on one monitor screen.

Audio Streaming - monitor sounds from any remote location

Video Security-Visible, unique watermark

Alarm Management- change speeds, store photos or change camera position

Smart Recording- Image Compression adjusts depending on activity levels.

Video Indexing- Video files are indexed by date, time, host and camera name.

Instant Access- Multiple users on one system can play back upto 32 video files at the same time, with variable speeds.

User Security- Multiple user names and passwords are assigned for multiple levels of access.

Camera Control- Control camera, zoom, move and focus all from one workstation location.

Benefits

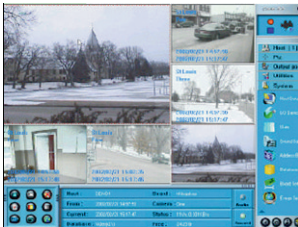

All the top of the line features needed for the ultimate digital surveillance and security system.

Outstanding video compression so it doesn't lock up your network bandwidth.

Compression adjusts automatically to give you more storage on less disk space.

Easy-to-Use software allows viewing and sharing files with each other simple.

Continuous recording means no need for motion detectors.

Sample monitors with multiple camera outputs, viewed at two workstation locations.

CAM SS/XP PC Hardware Specifications

Mount-	4U rack mount case
Motherboard-	Intel 865 chipset
Processor-	Intel Pentium 2.4 Ghz or better
Memory-	512 MB DDR RAM
Hard Drive-	120 GB Seagate Barracuda V 7200 RPM
Graphics Card-	MSI nVidia GeForce 4 G4MX440-VTP, (MS-8866) 8x AGP 128 MB DDR, Dual VGA,TV-out, Video In. Video breakout connector, 8ft. S-video ext.
Video Capture-	10 fps per camera at 640x480, Max 4 PCI cards per system; 4 BNC composite video channels per PCI card; amx 16 video channels
CD-RW-	52X CD-RW
Hard Drive Storage-	120GB drive standard, up to 900 GB option available
Network-	10/100 LAN
Expansion Boards-	4 channel
Operating System-	Windows XP Pro
Channels-	4 video/2 audio (40 fps), 8 video/4 audio (80 fps), 12 video/6 audio (120 fps), 16 video/8 audio (160 fps)
Frames per second -	10 fps per channel of video
Alarm I/O-	8 alarm I/O standa, customize up to 32 I/O
Support/Warranty-	1 year warranty; 1 year software support; unlimited CAM SS/XP client software license
